

Invitation for Participatory Research and Innovation Program (PRIP) 2022-23

Research & Development Cell of the Institute will organised PRIP-2023 as per following schedule.

Tentative schedule

1. Invitation of proposals of article by department: **05 April 2023.**
2. Departmental recommendation of article to R&D cell: **30 April, 2023.**
3. Final presentation of articles **2nd week of May 2023 (Two days).**
- A. PRIP would be organized in two distinct groups.
 - a) Group A: Science & Agriculture
 - b) Group B: Arts, Law, Commerce and Education.
- B. There would be three awards in each group.
- C. A group of P.G. students (comprising minimum two students and maximum four) will constitute a group which will write a review article on a topic selected/proposed by their supervisor (which should be of a faculty member of the respective department).
- D. There cannot be more than two groups (entries) from each department for final presentations.
- E. Department should select the group(s) via department level screening and forward the name, topic and article to the R&D cell of the institute by: 30th April 2023.
- F. Only review articles (secondary articles) would be allowed for presentation and it must contain a minimum fifty (50) references.
- G. Templates/guideline regarding the format for distinct groups are attached here with.
- H. Evaluation would be done by externalevaluators on the basis of quality of the article and its presentation. The prizes will be as follows:

I st Prize	:	Rs. 4000/-
II nd Prize	:	Rs. 3000/-
III rd Prize	:	Rs. 2000/-

Format for Group A

1. Manuscripts should be typed and double-spaced. The pages should be numbered consecutively, starting with the title page and through the text, reference list, tables and figure legends. The manuscript should be ordered as follows: Title page, abstract, key words, text, acknowledgements, references, tables, figure legends (on separate page preceding the first figure), figures (one figure per page; the figures should be labelled). The title page should contain Title, Authors, Affiliations, and Corresponding author and address. The title should

be brief, specific and amenable to indexing. Not more than five **keywords** should be indicated separately; these should be chosen carefully and must not be phrases of several words. **Abstract** and **summary** should be limited to 100 words and convey the main points of the paper, outline the results and conclusions, and explain the significance of the results.

Text: All papers should have a brief introduction. The text should be intelligible to readers in different disciplines and technical terms should be defined. Tables and figures should be referred to in numerical order. All symbols and abbreviations must be defined, and used only when necessary. Superscripts, subscripts and ambiguous characters should be clearly indicated. Units of measure should be metric or, preferably, SI.

Figures: Line drawings should be roughly twice the final printed size. Photomicrographs and other photographs that require it must have a scale bar, which should be defined clearly in the legend. Primary data should be submitted as far as possible (e.g. actual photographs of electrophoretic gels rather than idealized diagrams). The map of India, if forming a part of the article, must conform to official maps released by the Survey of India, giving reference to the source map. Lettering should be sufficiently large to be clear after reduction to print size.

References should be numbered in superscript, serially in the order in which they appear, first through the text and then through table and figure legends. References should not include unpublished source materials. The list of References at the end of the text should be in the following format.

Lindley, S. T., Estimation of population growth and extinction parameters from noisy data. *Ecol. Appl.*, 2003, **13**, 806-813.

2. Martin, H., The Archaean grey genesis and the genesis of continental crust. In *Archaean Crustal Evolution* (ed. Condie, K. C.), Elsevier, Amsterdam, 1994, pp. 205-259.

3. Rao, K. N. and Vaidyanadhan, R., Geomorphic features in Krishna Delta and its evolution. In *Proceedings of the National Symposium on Morphology and Evolution of Landforms*,

Department of Geology, Delhi University, New Delhi, 1978. **Acknowledgements** should be

as brief as possible. **Footnotes** are not normally allowed except to identify the author for

correspondence. **Cover photographs.** Good colour photographs that pertain to a submitted paper will be considered for use on the cover. Good prints and a legend should be submitted with the manuscript.

Format for group B

1. Essays must be typed in *Times New Roman* using the standard 12-point font in 1.5 spacing.

2. In the preparation of the paper, follow strictly MLA style for in-text citations and references.
3. Review articles must be within the word limit of 1500-3000.
4. Quotations should be in double inverted commas. Quotations longer than 25 words should be indented 0.5 on both sides without quotation marks. Such block quotations should be in font size 10 and single spaced.
5. Do not decorate your submission with lines, borders, special characters etc., which may lead to rejection.
6. Any form of academic misconduct will not be entertained.
